ASCA Fellows 2016 application

Greetings. The application for the 2016 Fellows Class is attached. For consideration, please complete and return it back to me by Wednesday, March 30, 2016.

For the 2016 class, the project will be a SWOT analysis (strengths, weaknesses, opportunities, tactics) of the spectrum of American Swimming. (A further explanation is below.)

Note: all selected Fellows need to attend the Fellows Clinic and the World Clinic associated with their selection. This is a cost that the individual Fellow bears. The 2016 ASCA World Clinic is September 6-11 in Fort Lauderdale, Florida. Fellows should plan to be in Fort Lauderdale for the latter half of Monday, September 5, 2016 through the duration of the World Clinic.

Thank you for your interest in the ASCA Fellows, and if you have any questions, please let me know.

----- ASCA Fellows 2016 project -----
A SWOT analysis of the American Swimming team from summer league to National Team.
To include: summer league, Age Group (USA Swimming and YMCA), Senior, high school, college and professional Swimming. To identify strengths, weaknesses, opportunities and threats

End work product will be article(s) relaying results of the study to the American coaching community through American Swimming magazine. Study will be directed by Chuck Warner and John Leonard to provide long-term perspective on what to study and how to study it to obtain meaningful results. The end product will be presented to the ASCA Board of Directors; publication will follow their acceptance of the final project. The project is the property of ASCA and may NOT be published without the approval of the Board of Directors (purpose: to prevent publication of a flawed study).

Questions on the project should be directed to Leonard at jleonard@swimmingcoach.org.
